

COUPON CALENDAR  
Jan. 24: Meat coupon 21, but-  
ter coupon 138.  
Jan. 31: Meat coupon 22.  
N.B. Under the 1946 combined  
sugar-preserves rationing plan,  
each sugar coupon will buy either  
one pound of sugar or two old pre-  
serves coupons' worth of preserves.

# The Coleman Journal

Most Effective Advertising Medium reaching the People of Town and District. The Journal goes into the Homes.

Volume 24, No. 36. THE JOURNAL, COLEMAN, ALBERTA THURSDAY, JAN. 17, 1946. \$2.00 Per Year; Single Copy 5c.

COUPON CALENDAR  
Valid Jan. 17: Sugar coupons 68  
and 69; butter coupon 137; meat  
coupon 20.  
Expire Jan. 31: Preserves cou-  
pons 33 to 57; P coupons P1 to P25;  
all unnumbered preserves coupons  
issued for special purposes.  
Note: Sugar coupons 68 and 69  
may also be used for preserves.

## Assurance Given Pincher Board Of Trade That Pincher To Crows Nest Highway to be Surfaced in 1946

E. O. Duke, M.L.A., Stated Last  
Summer Highway Was to be  
Surfaced in 1946; Pincher An-  
nouncement First Public State-  
ment Given By Highways  
Department.

At a regular meeting of the  
Pincher Board of Trade last week,  
its president, Mr. S. Lunn, stated  
that assurance had been received  
from the provincial government  
that the Pincher to Crows Nest  
No. 3 highway would be hard-  
surfaced in 1946.

This is the good news motorists  
in the Pass have waited many  
years to hear. The paved road to  
Pincher will join up with paved  
roads to Lethbridge and Calgary  
and the stretch from Maple Leaf  
to Pincher which is nothing but a  
mental obstacle with its dust and  
washboard road will soon become  
a pleasure to ride over.

Last Spring an association  
known as the Southern Trans-  
Canada Highway Association was  
organized at Frank to take in all  
Boards of Trade and Service clubs  
between Medicine Hat and Hope,

B. C. Purpose of the Association  
was to urge both the Alberta and  
British Columbia governments to  
pave the trans-Canada highway  
which ran through the southern  
part of their respective provinces.

While petitions went to Edmon-  
ton from the Association head-  
quarters they are thought to have  
only added a little weight to the  
tremendous efforts put forth on the  
part of E. O. Duke, M.L.A. of this  
constituency, to have the road  
paved at the earliest possible mo-  
ment. Prior to leaving last sum-  
mer to spend a vacation at the  
coast Mr. Duke announced to a few  
friends and supporters that he had  
been given assurance by Mr.  
Fallow, Minister of Public Works,  
that the road would be paved in  
1946. The Journal ran a six column  
headline on Mr. Duke's statement  
and caused it to be published in  
other provincial papers but Mr.  
Fallow neither denied nor affirmed  
it until Mr. Lunn, of Pincher Creek,  
stated that government assurance  
had now been received that the  
project would be completed this  
summer.

## Many Attended Funeral Of Jack Richards

Welsh Choir of Thirty Voices  
Sang During Church Service;  
Interment Took Place in  
Union Cemetery.

Many friends and acquaintances  
attended the funeral of Jack Rich-  
ards, which took place on Sunday  
afternoon at 2 o'clock. A service  
was held in St. Alban's church,  
conducted by Rev. W. E. Brown.  
The congregation sang "Bread  
On Me Breath of God" and "Book  
of Ages." The Welsh Singers of  
approximately thirty voices sang  
"Guide Me O Thy Great Jehovah."  
Mrs. Walter Pettifor sang "O Rest  
in the Lord."  
The funeral procession was led

by members of the Canadian  
Legion, followed by friends. At the  
graveyard Rev. Brown conducted a  
brief service, followed by the Le-  
gion service.

Pallbearers were Tom Flynn,  
Neil Fleming sr., Alan Brown, Jack  
Williams, Ernie Hill and Tommy  
Lloyd.

CARD OF THANKS  
We wish to thank our kind  
friends and neighbors for their acts  
of love and sympathy during our  
recent loss of husband and father,  
to those who loaned cars and also  
extended grateful thanks for the  
beautiful floral tributes to our loved  
one.

Mrs. J. Richards and family.

FLORAL TRIBUTES: Lor. and  
Nana; Lor. and Eileen; Eileen and  
Ross; Mr. and Mrs. N. Fleming sr.;  
Ross family; Crows Nest; Summit  
Lodge; A. F. & A. M.; Rebekah  
Lodge; Coleman; Pythian Lodge.  
(Continued on Page 5)

## Notice of Annual Meeting

Public Notice is hereby given that a meeting  
of the electors of the Town of Coleman and  
the Coleman School District No. 1216, will be  
held in the Town Hall on Friday, the 25th  
day of January, 1946, at eight o'clock p.m.,  
for the purpose of receiving the report of the  
Mayor, Secretary-Treasurer, Auditor and  
Chairman of the various committees of the  
Council. Also reports of School Chairman  
and committees' chairmen

Dated at Coleman, Alberta, this 14th day of  
January, 1946.

G. LEES,  
Secretary-Treasurer.

### PAUL BIELESCH FUNERAL HELD TUESDAY

Paul Bielesch, 57, uncle of Mrs.  
Joe Lipovski, was buried in the  
Coleman Catholic cemetery on  
Tuesday morning.

Deceased died while working in  
the Hillcrest Mohawk Collieries  
last Friday. He was a single man  
and was the brother of Mrs. George  
Bielesch, of Calgary. Mrs. Bie-  
lesch's maiden name being also Biel-  
esch.

Since all the deceased man's re-  
latives resided in Coleman it was  
decided to bring him to Coleman  
for burial. A service was conducted  
in Holy Ghost church.

## Committee Considering Applications For Additional Meat For Miners

A committee set up under the  
food rationing section of the War-  
time Prices and Trade Board open-  
ed its sittings in Blairmore Tues-  
day to receive applications for ad-  
ditional meat rations for minework-  
ers. The committee is composed of  
Mayor Enoch Williams, Blairmore,  
representing the local ration board;  
W. H. Chappell, Blairmore, repre-  
senting the coal operators; and Max  
Stigler, Coleman, representing sub-  
district 3, U. M. W. of A. It is ex-  
pected they will pass on between  
800 and 1,000 applications for ex-  
tra meat rations.

The basis of these decisions will  
not be the heaviness of the work,  
but rather the living conditions pec-  
uliar to the coal mining industry.

### Pte. Bill Ferby to Arrive In Calgary On Saturday

Returned Home on Hospital Ship  
"Lady Nelson;" Has Been Ill  
For Several Months.

Jim Park, secretary of the local  
Red Cross Society, is in receipt of  
a letter from D. H. Tomlinson, com-  
missioner, Alberta Division of the  
Canadian Red Cross, informing  
him that Pte. William Ferby, of  
Coleman, has returned to Canada  
on the hospital ship "Lady Nelson"  
and that his train is scheduled to  
arrive in Calgary on Saturday, Jan.  
19. Mr. Park has now relayed this  
information to Bill's mother in east  
Coleman.

Enquiry from friends reveals  
that Bill is not thought to suffer  
from wounds but has been sickly  
for several months and has not  
fully recovered his health.

### Blairmore Club Bond Goes To Calgary Man

J. E. Crockett, Marlborough  
Apts., Calgary, made a guess last  
summer at the number of votes  
cast in the Dominion election.

Thursday evening he did not  
remember what his guess was, and  
had even forgot making it, until he  
was informed he had won a  
\$1,000 Victory Bond for making the  
closest estimate.

The contest was sponsored by the  
Blairmore Lions club.

"It was sure a pleasant sur-  
prise," said Mr. Crockett, an em-  
ployee of the Unemployment Insur-  
ance Commission. "I think I'll put  
the bond away as a little nest-egg."

### IT PAID TO ADVERTISE

Wilf Dutil gives credit to The  
Journal for selling a new electric  
refrigerator for him. Wilf has had  
the machine in his store window  
since shortly before Christmas  
without selling it. Last week he  
advertised it in his regular weekly  
adv. A Journal reader in Frank  
read the advt., was in the market  
for a refrigerator, and immediately  
contacted Wilf, who made the sale.  
Wilf is pleased, the customer is  
pleased, and The Journal is cer-  
tainly pleased at having brought  
buyer and seller together.

## Council Purchases New Ford Truck to be Used as Fire Truck; Protest Proposed Raise In Gasoline Price

Medical Health Officer Urges  
Garbage Box Cleaned Up As  
Quickly As Possible; Chief of  
Police Submits 1945 Report.

Regular meeting of the council  
was held on Monday evening.  
Present Mayor Frank Abousafy,  
Councillors, Dutil, Lowe, Wilson  
and Ramsay.

The Medical Health Officer sub-  
mitted his report which read:  
"Since my last report several com-  
plaints have been received in  
regard to garbage and ash removal.  
I have investigated several cases  
and find conditions very unsatis-  
factory. I realize it is a difficult  
matter to remedy this at once but  
the garbage at least should be dealt  
with at once."

As a result of the MHO's letter  
chairman of the Works and Prop-  
erty committee was authorized to  
interview the town ashman and  
urge that garbage and ashes  
throughout town be cleaned up as  
quickly as possible.

Council was informed that Frank  
Horeli, tenant in the Androschak  
property on Second street was be-  
hind in rent. The matter was re-  
ferred to town solicitor Bannan.

Council will draft a protest,  
which will be sent Donald Gordon,  
against the proposed increase of  
two cents on a gallon of gasoline.  
Council will add its voice in favor  
of the Dominion government elim-  
inating the three cents tax which  
the Dominion government collects  
on each gallon of gas.

Definite agreement was reached  
to purchase a truck which will be  
built into a fire truck. The order  
was authorized to be placed  
through Sentinel Motors, Ford  
agents.

Chief of Police Antle submitted  
his report for 1945. It revealed the  
following:  
Court cases prosecuted in the  
Town of Coleman.

Cases under the Criminal Code:  
10 for assault, section 291; 1 for  
operating a gaming house, section  
229; 10 for being inmates of a  
gaming house, section 228; 2 for  
theft, section 356; 1 for breaking  
property, section 539; 1 for swear-  
ing in a public place, section 238  
(f); 1 for beating board bill.

### SCOTTISH SOLDIER THANKS LOCAL RED CROSS

This week Jim Park, secretary  
of Coleman branch of the Canadian  
Red Cross, received a letter from a  
Scottish soldier residing at Forth-  
side, Stirling, Scotland, thanking  
the branch for a quilt received by  
him.

The letter reads:  
Dear Sir:

A few days ago I received a lovely  
quilt through the local branch  
of the WVS and on examination  
of same I noticed a label attached  
giving me the information that it  
was a gift from your town; so I  
would like to extend to you my  
grateful thanks for the splendid  
present, and I can assure you it is  
greatly appreciated by one who has  
spent five years in a prison camp  
in Germany.

Yours sincerely  
Cfn. Galbraith, R.

COMING EVENTS  
ST. PAUL'S LADIES AID Val-  
entine Tea and Sale, Sat., Feb. 8.

## COLEMAN BRANCH of the CANADIAN LEGION Election of Officers for 1946

Every Active Member is requested to be present.

**SUNDAY, JAN. 21st**  
At 2.45 p.m. prompt  
in the Canadian Legion Club Room

## EXHIBITION HOCKEY MATCHES

In order to bring in outside teams, Coleman  
Intermediate Hockey Club has found in necessary to  
raise the admission price from 25c to 35c for adults.

This has been found necessary in order to meet  
guarantees to visiting clubs.

COLEMAN GRANDS' EXECUTIVE

### Showing at

Palace Theatre, Coleman  
SATURDAY and MONDAY  
January 19 and 21

Cole's Theatre, Bellevue  
TUESDAY and WEDNESDAY  
January 22 and 23

Orpheum Theatre, Blairmore  
THURSDAY and FRIDAY  
January 24 and 25

# "THAT NIGHT WITH YOU"

Starring:  
FRANCHOT TONE,  
SUSSANA FOSTER,  
DAVID BRUCE,  
LOUISE ALLBRITTON

## A MUSICAL

The Classics of the Old Masters  
Brought Into Swingtime.

WORLD HAPPENINGS  
BRIEFLY TOLD

Oxford university's undergraduate newspaper, "The Isis," recently made its first appearance in six years.

A silver penny minted in the reign of Offa, King of Mercia (757-796) sold by auction in London for £26 (\$117).

The council of Hastings, Eng., sent along the sea-front promenade recently their first tea-trolley to serve people on the beach.

Value of Canadian construction awards in Canada increased by \$117, 67,900 over 1944, statistics compiled by MacLean Building Reports Ltd., show.

Just before he died composer Jerome Kern gave his song "Windmill under the Stars" to the Canadian "Most the Navy" show being filmed at Elstree, Eng.

The South African government is using DDT in Zululand in an effort to wipe out the tsetse fly, dread carrier of sleeping sickness. Areas are being sprayed from the air.

Emmanuel Shinwell, British minister of fuel, told his Durham constituents that unless new recruits to mining are obtained the industry cannot be carried on in the future.

The London Daily Mail said that a special admiralty commission was working on revolutionary plans for a new navy for Britain, designed to cope with the threat of the atom bomb.

There are 13,000 women and children on the waiting list for passage from South Africa to the United Kingdom and more than 5,000 of these are dependents of service personnel.

The Barwell Fen village council has decided to let a 500-pound live bomb remain "to save bomb disposal unit in England from unnecessary risks." The bomb, dropped three years ago, is 25 feet below some cultivated ground.

## Proof Of Ancient Life

Many Discoveries Are Recorded As A Result Of War Work

The war cramped scientific expeditions, but excavations and bomb craters yielded new proof of ancient life through unexpected discoveries of caves, buried temples and cities, the U.S. National Geographic Society reported.

The design of an ancient Celtic wood temple, probably built between 500 and 300 B.C., was revealed by digging for airfields in England. Examination of bomb craters in Canterbury, England, disclosed evidence of an ancient city built there soon after the Roman conquest in 43 A.D.

The extension of Gibraltar's underground defense system opened up a cave where fossils of ancient jaw sets of teeth and vertebrae were found.

Also in 1945 Russia reported finding ancient settlements between 25,000 and 100,000 years old on a new island in the Laptev Sea off northern Siberia was charted. Soviet scientists dug up fossil remains of a giant whose skull measured 33 inches in circumference and whose shin bone was 33 inches long.

The University of Chicago reported finding a town built on 16 different levels 250 miles from Baghdad. The towns were built one above the other and beneath all was evidence of ancient nomadic life.

A pre-bronze age settlement was discovered near Haifa while the site of Beth-Yerah on the Sea of Galilee yielded ruins of pre-Christian periods. An ancient city of eight large mounds was discovered by an expedition to southern Mexico. This discovery by the Seventh National Geographic Society-Smithsonian Institution expedition, indicated a migration from the Gulf coast of Olmec culture which antedated Mayan civilization.

British explorers flying over North Polar regions located the north magnetic pole in the centre of the Sverdrup Islands group, 530 miles nearer the geographic pole than the Boothia Peninsula, the long accepted location.

## DEPENDS ON WEATHER

After a few words, mostly spoken by the young wife, her hubby sprang to his feet.

"You've gone too far!" he exclaimed, angrily. "This is our last quarrel. I'm going right out of your life."

"Oh, Henry, darling, where are you going?" she cried.

"Where I'll never trouble you again," he replied, as he started to open the door. "I'll find a place where wild adventure will wipe out the memories of this moment—perhaps in the jungle—or on the stormy seas—"

As he spoke he opened the door, then closed it again and turned sternly to his wife.

"It's lucky for you it's raining," he said.

## HAD MINDS MADE UP

All the evidence taken from German and Japanese secret documents proves that both countries were deliberately preparing for war and that no appeasement by the democratic countries could have altered that determination.

## Life In The Arctic

Capt. Nielsen Has Sailed Northern Waters For Many Years

For 42 years grey-haired and bespectacled Captain Jens Ole Nielsen has plowed past the teeming icebergs of Hudson and James Bays. In all this 42 years of skimming salt water, the 61-year-old skipper has never once ventured out into the Atlantic as a master of an ocean-going vessel and expects to retire in four years without breaking his record.

Quite content to sail the northern bays and rivers during his nearly half a century in the North, he "wore out" four ships totalling 336 tons. At present he is visiting his wife, Clementine, and his family in Timmins winter vacation, from his Mooseonee post as master of the Hudson's Bay Company schooner Fort Severn.

Skipper Nielsen is a Dane, measures "only" five feet 10 inches in height, but maintains that what he lacks in height, he makes up for in width. He wears size 52 suits with 20-inch shirt collars, and tips the scales at 247 pounds.

The skipper was only 14 years old when he took to the water as a cabin boy aboard Danish ships. When he was 19 he set sail for Canada as a crew-member of the Hudson's Bay Company ship Lady Head, whom he joined in England. That was 1903, and his first Canadian winter was spent in Mooseonee. Next fall, he joined Revillon Brothers and sailed for that firm 22 years after leaving the Hudson's Bay Company in the fall of 1926.

"Sailing the bays and rivers of the North is a treacherous business," Nielsen says. "You never know what you'll run into next." He has been caught in ice-floes. He has been in ships when their propellers were knocked out by ice. One ship he was in had a bottom ripped out. He said that it is to be in the dog fog with icebergs looming in the frozen waters.

Skipper Nielsen knows every bay and inlet in the northern waters, along the route from Mooseonee to Charlton Island and Great Whale river are countless islands where fur traders have been carrying on business for 200 years. There, posts were established by the Hudson's Bay and Company traders to interchange the Indians bringing home their furs. The skipper remembers those days during the last war, when he himself trekked for miles with his dog team, the better to get furs from his rivals' catch.

Very fond of the Eskimo, Skipper Nielsen believes they deserve a great deal of credit for the way they live. "They're wonderful people and every Eskimo who has been in contact with myself for being white," he said. "Civilizing Eskimos has been responsible for their going astray. Once they became so-called civilized, they'd go about and steal and do all sorts of things and blame it all on the Devil."

## Saskatchewan Indians

To Form A Single Indian Organization In The Province

Indians of Saskatchewan, for the first time since the signing of the Qu'Appelle Treaty in 1874 under which their forebears surrendered 75,000 square miles of land to the Crown, have agreed to unite in a Federation and press for their rights as Canadians.

They gathered in solemn conclave at the Legislative Buildings, summoned by Premier T. C. Douglas, who last summer accepted from the Assiniboine the title of Chief We-A-Ga-Sha (Red Eagle).

The 60 delegates represented the Assiniboine, Saulteaux, Cree and Sioux tribes. They came from reserves as far north as Prince Albert, and from reserves near the United States border.

The conference was called by Mr. Douglas with the object of uniting all tribes and other Indian groups into a freedom of red men who could speak for all their Saskatchewan brothers, and it achieved its object when the gathering passed a resolution favoring establishment of a single Indian organization in the province.

The resolution emphasized the single organization will be formed to express and advance the view of all Saskatchewan Indians. Its members will have the right to maintain membership in existing organizations.

The new body will be known as the Indian Federation of Saskatchewan.

## SHOULD BE PUNISHED

The Edmonton Journal says a man who treacherously carries a gun is a potential murderer, with no reservations. Unless gun-toting is punished more drastically than it has been, Canada is certain to see a sharp increase in homicide. Now is the time to make it very tough for all who are caught carrying concealed weapons unlawfully.

## NEW GRAMOPHONE

An English record company announces a new recording system and a new gramophone. The combination of gramophone and records made under the new system is said to produce living music of a previously unattainable quality and for the first time symphonies can be heard in the home with the same clarity and realism as in the concert hall.

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Chicken and Dumplings	Pot Roast of Beef	Chicken Short-cakes	Meat Croquettes	Lamb Chops	Fish	Beef & Veal Loaf
Unrationed	Group C	left-over chicken	left-over beef	Group D	unrationed	Group C
	4 lbs. 2 coupons			1 1/4 lbs. 4 tokens		1 1/2 lbs. 6 tokens

4 tokens for 1/2 lb. bacon.  
2 tokens to carry over.

With the festive season behind us, the time seems opportune for chicken, to be the centre of eating attention for Sunday dinner. By choosing a good-sized bird you should be assured of left-overs to incorporate in a good cream sauce on Tuesday. This rightly assumes a festive air when served shortcake-fashion on baking powder biscuits of cornmeal squares. A savoury pot roast for Monday will answer the call of hearty appetites. From a two-coupon expenditure you should have some luncheon fixings on hand. And for Wednesday's dinner a little culinary first aid can realize the remnants. The suggestion is that they be fashioned into croquettes, delicately browned in the oven, which is a simple way of getting around the fat shortage, and served with a sauce such as mushroom or a tangy tomato. On Thursday half a coupon's worth of shoulder lamb chops can form the tasty basis of a stew or casserole dish. Friday is yours to make a selection from the aquatic world. A beef and veal loaf, to which for nutrition's sake and ration economy you may care to add a half a pound of unrationed liver, can do double duty by being served hot on Saturday and sliced cold for Sunday supper. A bacon purchase of half a pound for breakfast or luncheon treats will leave you with two tokens of ration change for future use.

## No More Breakages A Misunderstanding

Plastic Eyes Will Soon Replace Ordinary Glass Type

News that plastic eyes are being produced by the Optical Appliances Section of the Ministry of Pensions probably sounds the death knell of the ordinary glass eye, whose main disadvantage has always been the risk of breakage. The Ministry had absorbed much of the large peacetime stock by issuing many thousands of the old type to war casualties before developing the new plastic model.

The artificial eye business was surprisingly healthy even before the war, providing work for half a dozen leading concerns in this country. It was then reckoned that about 10,000 persons wore glass eyes, with regular additions owing to accidents in industry and the home. Manchester Guardian.

## GUESSED WRONG

Anton Mussert, Dutch Nazi leader, who collaborated with the Germans during the war, showed no surprise when he was sentenced to death by a Netherlands court. When he turned traitor to his country he knew he was committing high treason. He just made the guess Germany would win the war. It was a bad guess.

## LIFE'S LIKE THAT By Fred Neher

"Now, you stay behind there until I pick out your present."

## REG'LAR FELLERS—A Shady Deal

## Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

## PREVENTABLE ILLNESS COSTS APPALLING SUM

The week of February 3 has been set aside by the Health League of Canada as "Health Week"—an observance dedicated to Canadian national, community and personal health. It is designed not only to draw attention to benefits which can be derived from good health, but also to point out that sickness, much of it preventable, today is costing Canada, directly and indirectly, an estimated billion dollars annually.

This is an appalling sum for a country which appears destined to become one of the leading nations of the world.

In promoting "Health Week" the Health League is seeking to draw the attention of all citizens to methods of disease prevention advocated by the various official health departments. The League also is seeking the cooperation of churches, schools and affiliated organizations, service clubs and other public-spirited organizations in spreading messages on health during that particular week. An outstanding feature of the "Week" will be the third annual "National Sanitary Hygiene Day" which falls on the Wednesday, February 6. This is an annual event sponsored by the League in cooperation with health departments.

This "Day" will mark the opening of another season's intensive anti-VD campaign, coinciding with a similar observance in the United States. All co-operating publicity media will stress the serious problems created by the continued spread of venereal diseases.

## Bungalows From Scrap

Fifty thousand Bungalows To Be Built In Britain

Five great United Kingdom bomb factories are now turning out the world's finest prefabricated houses. This was revealed recently by Mr. Arthur Woodburn, Parliamentary Secretary of the Ministry of Aircraft Production. Mr. Woodburn who was opening the first aluminum house erected in Blackpool, England, said: "Bating to others into bungalows is the modern version of turning swine into pigsties." Fifty thousand bungalows will be produced in the United Kingdom in the next year or two from a thousand tons of aluminum scrap recovered from obsolete aircraft.

A radar impulse can go to and from an obstacle five or 10 yards away in one-thirtieth of a millionth of a second.

KNOW that man?" asked a passenger, indicating a fellow traveler on the fourth deck of the Marigold.

"That's the tax inventor."

"But what's his name?"

"Dunno," said the news butcher.

"Nobody seems to know. He's more or less a mystery. They say he plans to do a world-wide business. We just call him the 'T.I.'"

"And is his dog . . . that hard, white one with red eyelids and pale blue eyes?" asked the passenger.

"Yes," said the news butcher, "that's his dog. Name's Masterpiece, a queer moniker if ever I heard one. The two of 'em ain't on the boat any more than three minutes before the tax inventor will say: 'Now hide, Masterpiece, hide,' and the dog curls up behind a deck chair or just disappears. A smart pup."

"Well, well," remarked the passenger. "This tax inventor looks interesting. Must have a talk with him."

"There's Masterpiece hiding now," said the news butcher, pointing. "He's just about to lie down behind that traveling bag on the starboard side."

Only ship in the world powered by electric coils, the Marigold ran down stream in free wheeling. The motion of the ship recharged the tired coils just as a car battery is recharged on the road.

There was no one at the wheel. The ship always fitted with the latest equipment, was travelling on a beam . . . a beam that allowed the ship to make the turns in the river.

The zenith is that part of the heavens directly overhead.

The passenger walked toward the tax inventor who was leaning on the rail.

"A wonderful day," he said by way of getting started.

"Not bad," returned the tax inventor solemnly. "I was just figuring how it could be taxed."

"Then you're the tax inventor?" inquired the passenger.

"Inventor and consulting engineer," corrected the other. "I give a complete service."

He was a strange looking person, this tax authority. He wore a black overcoat with the collar turned up. On his head was black homburg hat. It was a little too large for his, almost touching his ears.

The man's face was a putty white. His eyes were partly hidden by dark glasses. His nose was flat and his mouth was small and tight.

He took out his cigarette case and offered it to the passenger.

"Smoke?" he queried.

"No, thanks," returned the passenger getting out a pipe. "I always smoke this kind."

They lit up, the tax authority using a long black holder for his cigarette.

"Must be a fascinating business, inventing taxes," observed the passenger.

"My own tax ideas," he answered, "are copyrighted in all countries for my protection. I will allow any government to use my tax ideas on a royalty basis. My terms are ten per cent. of whatever the gross revenue is from any of my copyrighted taxes."

"Amazing," exclaimed the passenger. "You should get rich."

"No," said the tax authority. "Taxes will keep me poor."

HE went on, "Just the other day I got world copyright on the annual marriage license."

"The what," asked the passenger.

"Annual marriage license," replied the tax authority.

"You can't be serious."

"But I am," replied the tax authority. "I never was more serious in my life. This is the tax plan of the ages. It will bring in billions of dollars and I will get ten cents out of every dollar."

"How would it work?"

"It would work great," was the reply. "Suppose the cost of marriage license is five dollars. Suppose I lease it to the United States which has 32,000,000 married couples. The gross revenue would be \$160,000,000 a year. Then there's Canada, Mexico and all Central and South America. Think, too, of the opportunities elsewhere. When you realize that I hold world copyright to the plan you must admit that the thing is clever."

"Let me understand this plan right," said the passenger. "Would a couple cease to be married if they didn't pay the tax?"

"Of course not," replied the tax authority. "They'd still be married, but they'd owe the government five dollars, and governments know how to collect."

"It's incredible!" breathed the passenger in admiration. "You must have a great head."

"I have," avowed the tax authority.

The passenger filled his pipe again. "Do you know," he said, "the only fly I see in the ointment is that no government would dare impose such a tax."

"Don't worry," said the tax authority. "The public so far as taxpayers are, is punch drunk. My own public opinion poll shows that."

"Maybe, you're right," said the passenger.

THE ship's siren blew for East Mountain and her four-wheeling brakes eased her up to the wharf.

A police officer in blue with gold braid here and there came up the gang plank. He strode straight to the tax authority.

"I have a warrant," he said, "for your last year's dog tax."

"What dog?" asked the tax inventor with a smirk.

Sure enough, Masterpiece, the wire old dog had disappeared. As the discomfited policeman retired the tax inventor turned to the passenger.

He explained, "To make the most of my inventive genius I must not only devise new taxes, but also methods to fight them. In that way I shall collect from governments one hundred and from individuals with the other. My disappearing dog is just an experiment in defence tactics."

corrected the other. "I give a complete service."

He was a strange looking person, this tax authority. He wore a black overcoat with the collar turned up. On his head was black homburg hat. It was a little too large for his, almost touching his ears.

The man's face was a putty white. His eyes were partly hidden by dark glasses. His nose was flat and his mouth was small and tight.

He took out his cigarette case and offered it to the passenger.

"Smoke?" he queried.

"No, thanks," returned the passenger getting out a pipe. "I always smoke this kind."

They lit up, the tax authority using a long black holder for his cigarette.

"Must be a fascinating business, inventing taxes," observed the passenger.

"My own tax ideas," he answered, "are copyrighted in all countries for my protection. I will allow any government to use my tax ideas on a royalty basis. My terms are ten per cent. of whatever the gross revenue is from any of my copyrighted taxes."

"Amazing," exclaimed the passenger. "You should get rich."

"No," said the tax authority. "Taxes will keep me poor."

HE went on, "Just the other day I got world copyright on the annual marriage license."

"The what," asked the passenger.

"Annual marriage license," replied the tax authority.

"You can't be serious."

"But I am," replied the tax authority. "I never was more serious in my life. This is the tax plan of the ages. It will bring in billions of dollars and I will get ten cents out of every dollar."

"How would it work?"

"It would work great," was the reply. "Suppose the cost of marriage license is five dollars. Suppose I lease it to the United States which has 32,000,000 married couples. The gross revenue would be \$160,000,000 a year. Then there's Canada, Mexico and all Central and South America. Think, too, of the opportunities elsewhere. When you realize that I hold world copyright to the plan you must admit that the thing is clever."

"Let me understand this plan right," said the passenger. "Would a couple cease to be married if they didn't pay the tax?"

"Of course not," replied the tax authority. "They'd still be married, but they'd owe the government five dollars, and governments know how to collect."

Should Be Worn By Men As Well As The Gentler Sex

If we had any sense, and any real understanding of our country, fur coats of all kinds would be the normal winter wear in Canada, but because we cling tenaciously to notions which did not evolve here, fur coats are luxuries worn by well-to-do women, and rarely worn by men.

It is all very silly and un-Canadian. If we truly understand ourselves as a nation there would be no tax on fur coats, they would be produced in quantity, and we would all have them. But it is still the Canadian way to avoid facing the realities about our country, and to import our ideas from abroad. — Peterborough Examiner.

SHOULD BE CULTIVATED

Like all mental attitudes, laughter can and should be cultivated. Laughter is a two-edged weapon—valuable as a tonic, but deadly when used as a ridicule. Therefore let us develop as a tonic this most contagious and helpful asset in these bad times. Spread happiness. Go about your daily duties seeking to cheer yourself and others. Laugh! and the world will laugh with you.

Some species of cactus have green flowers.

ROLL YOUR OWN WITH Macdonald's FINE CUT

Like Australians

Natives Of Borneo Delighted With Treatment Soldiers Gave Them

Santa Claus, in Borneo, wears a wide-brimmed Australian hat. When the Australians landed, the natives were astonished. Soon they were delighted. Here were white men treating them as equals as free citizens of Borneo.

These white men loved children. Every ragged urchin was their friend. The children loved it, and so did the parents.

An English rubber planter, who revisited an estate he managed before the war, said the natives in a village came to him almost weeping and said:

"Tuan, our hearts are sad because we have heard the Australians will soon be going home. They have given us of their own food and clothing. They have been kind to our children. We wish them to stay."

Tuan, you know important people, you have influence with the Government. Could you not arrange for the Australians to stay with us?"

Half the native children in Borneo now greet you with "Hullo George," writes Jack Fleming in the Melbourne Herald. Many proudly wear the 9th Division color patch. They ride in jeeps, in ducks, and in three-ton trucks. Units arrange sports for them, with sweets as prizes. The children cluster round Army cookhouses and every cook finds something to give them.

Parents, who cherish their children, and they have swarms of them, show their gratitude by doing the troops' washing, bringing them gifts of fruit and eggs, and even the potent native wine. Often when a Digger leaves they give a farewell party for him.

For years there will be talking in the villages of the white men from Australia in battered slouch hats who were so generous and friendly.

Luckless Prisoners

Were Beaten By S.S. Guards Until They Fell To Death Over A Cliff

A Mauthausen concentration camp guard told the war crimes tribunal that he saw eight prisoners held themselves over a 125-foot quarry cliff while S.S. men lashed them. The S.S. guards called this "playing paratrooper," he said.

The witness was Alois Hoeflriegel, a 36-year-old Austrian barber. He said he watched from a guard tower in 1941 while two S.S. men herded the prisoners toward the cliff.

"They beat the prisoners, and I saw that they intended to throw them over the cliff," he said. "Because of the beatings the prisoners threw themselves off the cliff in desperation."

Greenland is a possession of Denmark.

One gallon of gasoline, properly mixed with air, is equivalent to 83 pounds of dynamite.

THE MAGNETIC POLE

The magnetic pole which is on Canadian territory has once again shifted its position. Observations numbering thirty thousand taken earlier this year by the Royal Air Force pilots who flew across the geographical North Pole, have shown that the magnetic pole now lies three hundred miles to the north-west of its accepted position in the Boothia peninsula.—Exchange.

Bolivia has two capitals. Sucre is the real and legal capital, but La Paz is so much more important, commercially, and more readily accessible, that the national congress meets there.

HE'S LUCKIEST MAN AMONG 7,000—Fred McCarthy of Boston was the luckiest man among 7,000 who arrived in New York recently. He was washed overboard by one wave and tossed back by another.

1946 Tourist Season

Preparations Are Being Made To Welcome Many To The National Parks

Tourist experts are already estimating the approximate number of visitors Canada may receive during 1946, the first full year of peace. Experienced observers at the recent Toronto Conference of the Canadian Association of Tourist and Publicity Bureaus predicted a twenty-million tourist influx this year. Preparations are under way to welcome many of them to the national parks. Those who can do so are being urged to bring along their own camping equipment this year in case they find difficulty in securing accommodation in the national parks, especially at the height of the season. Special facilities are being provided for those visitors who are planning to spend their holidays under canvas or in automobile trailers.

From every part of entry streams of tourists will "fan out" to their favorite haunts, dispersing as they move northwards into Canada's great hinterland of lakes and forests and rivers. Most of them will be seeking a spot where they may enjoy for a few days or a few weeks nature's fresh, unspoiled beauty, far from the roar of traffic and the sound of factory whistles.

A foretaste of "things to come" in the realm of tourism may be gleaned from the interest that is being shown in this year's Bonf Winter Carnival, the twenty-seventh of such winter events to be held at this popular resort in the Canadian Rockies. The carnival is an exhilarating affair of high quality held in a setting that is perhaps unique on this continent. Skiing, skating, curling, hockey, tobogganing, ski-joring and broomball are among the winter sports on this year's agenda. The Carnival, which opened on December 26th, will be extended over a series of weekends, the final events of the winter season taking place on March 3rd with the crowning of the Carnival Queen.

Besides an invigorating program of fun and frolic on ice and snow, many important championships are being decided including speed skating, ski racing and bobsleis. Side attractions are much in evidence this year—swimming in the hot springs, dancing, dinner parties, snowshoeing and amateur theatricals. The new spirit of a nation at peace after five years of grim struggle is being manifested throughout in quite a spontaneous manner. A happy and care-free atmosphere pervades a winter scene of unparalleled beauty. The mood of this year's winter visitors may be described thus: the war is over; new era of peace has begun; let us welcome it in the true Canadian fashion.

A Matter Of Diet

Increase Weight And Height Of School Boys In Britain

A doctor has a plan to make Britain's boys bigger. He has found that elementary school lads are smaller than public school boys and is prescribing a better diet.

For three years Dr. E. H. M. Miligan, medical officer of health, has compared weights and heights at his local schools. His report is being studied by all education authorities providing free meals at council canteens.

Here are some of the doctor's recorded comparisons:

Aged nine—Public school boys 11 pounds heavier and three inches taller than elementary school boys.

Aged 11—Public school boys 10 pounds heavier and four inches taller.

Aged 14—Public school boys 21 pounds more, four inches taller.

Shortages of proteins and calories retarded some of the boys' growth.

One gallon of gasoline, properly mixed with air, is equivalent to 83 pounds of dynamite.

THE MAGNETIC POLE

The magnetic pole which is on Canadian territory has once again shifted its position. # Quality Guaranteed "SALADA" TEA

C.W.A.C. JOB IS ESSENTIAL—

Members of the Canadian Women's Army Corps are performing essential duties and their continued service is important during the period of demobilization and reorganization. It was emphasized at M.D. 12 Headquarters, Regina, Sask.

Because C.W.A.C. are not to be employed in the interim force, it does not follow that all personnel employed in the wartime army will be out of uniform by the end of March, 1946. Many members of the C.W.A.C. employed on duties connected with the demobilization program will be required to serve for some months beyond this date, it was stated.

## JOAN BENNETT CHOOSES TRIMZ Ready-Pasted Wallpaper!

The Miracle Wall-paper You Just Dip in Water and Apply!

"Trimz 'Rosewood' was my selection," says glamorous Joan Bennett. "It's so beautiful, so practical. Comes all ready-pasted, all ready to apply. Makes every woman her own decorator!"

See this miracle wallpaper at this store today. It's the choice of famous Hollywood stars for beauty. Choose from many patterns. Just dip it in water—and apply it! Guaranteed washable... fade-proof... guaranteed to stick or money back!

## NOTES AND COMMENTS

### Good Work, Mr. Duke!

Reading government assurance had been given the Pincher Creek Board of Trade that No. 3 highway from Pincher to Crows' Nest will be paved this summer we must, of necessity, pause a moment to say "Thank you, Mr. Duke."

It is our candid opinion that had not Mr. Duke, our M.L.A., given so much of his time in boosting on the floor of the Legislature and in the Department of Highways itself for a paved highway from Pincher to Crows' Nest it is doubtful if it could have been accomplished this year purely by agitation from organizations in this district.

He was fully aware of the deep resentment held by Pass motorists in regards to the stretch from Maple Leaf to Pincher Station, which had been allowed to deteriorate to a low point. He also knew that in wet weather the road became practically impassable and that with the exception of train service the Pass was more or less isolated. Knowing these two facts and numerous others such as the scenic grandeur enjoyed in this part of the province he took the motorists' battle to the floor of the legislature and won a good fight. The petitions from local and district organizations for the paved highway did no harm, probably strengthened Mr. Duke's hand, but we had to have a man to champion the battle and it is to Mr. Duke we give credit for winning the fight.

### We Need Board of Trade

All towns worthy of the name have Boards of Trade. A Board of Trade's constant objective is Progress; progress for the community and the district it serves.

Three instances occurred this week which stress the importance of a Board of Trade in a town. At Macleod a clothing factory is located with the aid of the Board of Trade; at Pincher the first public announcement given by the provincial government that the Pincher to Crows' Nest road would be paved was given the Board of Trade; at Cranbrook the Board of Trade prepared a brief strongly supporting the application of the British Columbia Central Air Line for an airline franchise which would give air service to Vancouver, Penticton, Salmo, Cranbrook and Lethbridge. The Board of Trade's brief was endorsed by the Cranbrook city council.

If Coleman is to progress it must become alive to the importance of organizing a Board of Trade at once. We must have an organization that will bring together business, professional and other men in town who have the interests of the town at heart.

The Crows' Nest Pass is one of the most highly industrialized areas in the province, it has huge tracts of valuable timberland, it possesses wild game and fishing streams, it has scenic grandeur unsurpassed in the province, BUT IT HASN'T A VOICE. An energetic Board of Trade could be that voice.

### What is Behind the U. S. Strikes?

Canadians are asking themselves the question, "What lies behind the U.S. strikes?" They are too universal and all are sprung at the same time to be mere coincidence. The strikes appear to come from a blue-print drawn up by labor during the war years.

That they have made some gains in wage structures shows that they had some grounds for complaint. However, to demand a 30% wage increase at the General Motors plants would appear to be a gigantic bluff and this is borne out in some measure by the fact that the union has agreed to abide by President Truman's Fact Finding Board which advocates considerably less than the 30% demand.

It is a ticklish problem that the American government has to handle. Inflationary pressure is considerably greater in that country than in Canada. If labor is allowed increased wage rates then management will have to boost prices, unless their profits are so excessive that the government forbids increased prices. If prices on goods are allowed to rise, labor with its increased wages has made no headway.

Here is a question we would like answered: Suppose the U.S. automobile manufacturers are allowed to increase their prices on cars will the Canadian Wartime Prices and Trade Board boost the price ceiling on these cars coming into Canada thus making Canadians pay financial tribute to American labor?

### SPORTS CHATTER

(Isabel Ewing)

#### COLEMAN, 4, BLAIRMORE 3

On Tuesday, January 15, a ragged match was played between Blairmore and Coleman juveniles, with Coleman winning 4-3. The ice was quite soft, but the game was still quite fast. In the first period Blairmore scored the first goal, but the score was soon tied by Kryzka and another goal was scored by Antonenko. In the second period Miller, of Blairmore, scored and Gettman scored for Coleman, and in the last period Kryzka again scored for Coleman and Cerny scored for Blairmore.

Coleman: Kleukos, Cherry, Ben-

nett, Sullivan, Kryzka, Urbeizka, Kovacic, R. Antonenko, Ford, Gettman, Salus, Graham, Pachkowski, E. Antonenko.

Blairmore: Catonia, Sveta, Zuberky, Tucker, Pitt, Blafore, Marcial, Lach, Cerny, Miller, Stella, Maruca.

The pee wee hockey league held their first matches on Sunday, January 13, with the following scores: Elks 8, Legions 9; Lions 3, Patinators 0.

The Coleman high school girls also played their first match on Sunday with the Shamrocks, Donald Cherry, coach, defeating the Buffaloes, Alex. Kovacic, coach, 3 to 1.

Scoring statistics.	G. A. P.
Billy Petrunick, Elks	4 0 4
Albert Gettman, Elks	2 0 2
Eddie Glowacz, Lions	1 1 2
Peter Chalkuk, Lions	1 0 1
Alois Hatalcik, Lions	1 0 1
George Jenkins, Elks	1 0 1
Bobby Park, Elks	1 0 1
Hector DeCecco, Lions	0 1 1

The hockey match held Sunday between the two midget teams, Buffaloes and Shamrocks, ended in a tie of 3 to 3.

On Thursday, Jan. 17, the Coleman midget all-stars will play the Bellevue midgets in the Coleman arena.

On Friday, Jan. 18, the Shaughnessy intermediates will play the Coleman Grands in Coleman, and on Saturday, Jan. 19, the Blairmore Bearcats will play the Coleman Grands in the Coleman arena.

## Meeting Of Interest To Returned Men

On Friday, Jan. 25, Pincher Creek Rehabilitation Committee will hold a meeting in the Orange hall at 8 p.m. The principal speaker will be Mr. Tanner, Minister of Lands and Mines who will give an address on the crown lands available in this district for the returned men and how they can be obtained.

An invitation has been extended to the returned men in the Pass, who are interested in going on to the land, to attend this important meeting.

## SNOW WHITE AND THE SEVEN DWARFS AGAIN COME TO PASS THEATRES

Snow White And The Seven Dwarfs, the Walt Disney production which broke all movie box office records, starts its second run of the Pass theatres at the Orpheum theatre, Blairmore, on Saturday night. This feature will play at the Palace on Tuesday and Wednesday Jan. 29 and 30. No doubt the kiddies and their parents will crowd into the theatre to once again see this classic of fantasy.

## Curlers Now Well Into League Play

Rypien and Vincent-Gate Rinks Lead Respective Sections; Rinks Fairly Evenly Matched.

Twenty-seven rinks are in competition with each other this season at the local curling rink, the largest number of entries in a great many years. League play started shortly after the New Year and with only two weeks of play concluded the rinks are still bunched together, it requiring a few weeks before the green men can find their proper weight and get into stride to help their skip rise in the league table.

Rinks have been split into two sections, A and B. There are 13 in section A and 14 in section B.

Following are the standings, including Tuesday night's games:

Section A	Won	Lost
Rypien	3	0
Rinaldi	3	0
Richards	1	0
Emmerson	3	1
Wright	2	1
D'Appolonia	2	1
Hoggan	2	2
Jenkins	2	2
Brown	1	2
Cornes	1	2
Dow	1	3
Krzywy	0	3
Harris	0	4
Section B	Won	Lost
Vincent	4	0
Gate	4	0
Ledieu	2	1
Fleming	2	1
Boulton	3	2
Holstead	2	2
Kerr	2	3
Clase	2	3
Ford	2	3
Nash	2	3
Balch	2	3
Artie	1	2
Chalmers	1	2
Antrobus	0	3

Tuberculosis today is unquestionably a greater public health and economic problem in Canada than all other acute communicable diseases combined. Your Christmas Seal dollars are still needed to fight this disease.

## The Churches

**ST. ALBAN'S CHURCH**  
Rev. W. E. Brown, Rector  
Daily offices:  
Mornings 9 a.m. Evensong 7.30 p.m.  
Friday: Choir practice 3 p.m.  
The second Sunday after the Epiphany:  
Holy Communion 8 a.m.  
Morning service 11 a.m.  
Young people's service 2 p.m.  
Holy baptism (by appointment) 3 p.m.  
There will be an account of our annual church meeting through the kindness of the editor and staff in next week's issue.

**ST. PAUL'S UNITED CHURCH**  
Morning service 11 a.m. Rev. Mr. McKelvey will be guest speaker.  
Sunday school 12.15.  
On Monday evening at 7.30 the annual meeting of the congregation

will be held. The officers of all organizations are asked to present their reports. Following the meeting a social hour will be enjoyed.

**T.B. QUESTIONS**  
ADVISED BY THE  
**ALBERTA TUBERCULOSIS ASSOCIATION**  
EDITED BY F. A. HUNT, M.D.  
National Tubercleleins Assn.

Q. To what extent does catarrh aggravate pulmonary TB?

A. Most tuberculosis is accompanied by a certain amount of catarrh of the bronchial tubes. When due to other causes the exertion from coughing or of other germs may favor relapse.

Q. Do the lungs heal while a patient continues to cough?

A. Healing may go on.

Q. Could you recommend a laboratory where I could have my sputum examined free, or at low cost?

A. Provincial and city laboratories will examine sputum free. Q. What do we learn from tuberculin tests?

A. A few weeks after tubercle bacilli have first become planted in our bodies, our tissues become sensitive to the products of the germs. Then, if a small amount of tuberculin is injected into our skin through a tiny needle or placed upon it as a patch test, the skin will show red, raised "reaction" in a couple of days. The harmless tuberculin test tells who has been infected. It says nothing about having the disease. A positive reaction says, "Search further."

## Council Purchases

(Continued from Page 1)

residence the war years, since 1940, "And whereas the Alberta Government ceased to participate in the cost of unemployment relief and today knows that unemployment is again a serious matter to all municipal authorities in this Province,

"And whereas the Government of the Province of British Columbia is still reimbursing municipalities 80 per cent of the amount of relief so paid to municipal cases and 100 per cent of the cost of Provincial cases, as well as paying 50 per cent of the cost of medical services to recipients of Old Age Pensions' allowances,

"Now therefore the Council of the City of Calgary urges the Government of the Province of Alberta to accept its responsibility, and take its part in looking after the people, and to assume its rightful share of the expense of unemployment relief on the same basis as the Province of British Columbia, viz 80 per cent of the cost, and to direct its efforts immediately in accepting and recognizing its responsibility in this regard.

"And that copies of this resolution be sent to all cities and towns in Alberta for endorsement."

Correspondence was received from McDonald Aviation Company Ltd., Edmonton, encouraging the organization of a flying club in Coleman and offering for sale a "Swift" plane. The letter revealed that demonstrators will be touring this vicinity this month and that if the council or flying club was interested a "Swift" plane would be routed to the local flying field. The letter was filed.

# JET PROPELLED METEOR PLANE TESTED UNDER COLD WEATHER CONDITIONS AT EDMONTON

EDMONTON.—Taking off from the R.C.A.F. northwest air command field here Saturday, Britain's jet-propelled Meteor plane was tested under cold weather conditions at a 400-mile per hour clip in its first test under cold weather conditions.

Flown by two Canadian test pilots of the R.C.A.F. winter experimental unit, Flt-Lt. William McKenzie of Winnipeg, and Sqdn-Ldr. E. L. Boudoux, D.S.O., D.F.C., of St. John's, N.S., the flight followed completion of assembly and ground testing by an 11-man Canadian crew.

The Meteor, which holds the air speed record of 606 m.p.h., is one of two shipped here with other up-to-date British military aircraft for winter testing at the experimental unit.

In the initial flight, the squat, propellerless jet craft was taken up by Sqdn-Ldr. Baboux, who is officer in charge of flying at the unit.

A keen proponent of jet propulsion, he expressed belief that the gas jet turbine is the engine of the future.

Due to its power plants, he said, the Meteor is simpler to fly from the standpoint of cockpit work, than a conventional aircraft and handles beautifully in the air.

Following the first test, Flt-Lt. William McKenzie thrilled the hundreds of onlookers as he flashed across the airfield about 100 feet off the ground climbing almost vertically, looping and rolling on the climb.

An interested onlooker was W. B. Thomas, formerly of Collingwood, Ont., who is technical adviser for Rolls Royce company. A mechanical engineer, he went to England nine years ago to join the famous engine firm.

A veteran of work on jet-propulsion engines, Flt-Sgt. George Jackson of Vancouver, headed the 11-man team of ground crew specialists which put the Meteor in shape for its cold weather tests.

The winter unit personnel is composed of officers and men of the R.C.A.F. and R.A.F., and technical advisers and representatives of British aircraft and engine firms.

A stubby-looking aircraft, with a low wing, tailplane set high on the tail fin and tri-cycle undercarriage, the Meteor is powered by two Rolls Royce "Deventon" gas jet turbine engines said to develop more than 2,000-h.p. each. It first flew in 1943, and was used against the flying bombs in 1944. Normal armament is four 20-mm. Hispano cannon.

Last Nov. 7, a Meteor set the new world's speed record in England, and on one run was flown at 613 m.p.h. over the official course. The record is taken from the average of four runs.

**POPULATION OF B.C.**  
VANCOUVER.—Population of British Columbia, as shown by ration books issued, has soared to a new all-time peak of 936,297—a gain of 63,381 in the last year, it was reported by the prices board.

**BUFFALO STEAKS**  
MONTREAL. Buffalo steaks have made their first appearance in several years in a number of Montreal butcher shops but as coupons are not necessary for their purchase, they are not expected to last long.

## TRADE POSSIBILITIES WITH BRAZIL MAY RESULT IN BETTER PROSPECTS FOR MORE SUGAR

OTTAWA.—A detailed study of Brazilian-Canadian trade possibilities, with a prospect of more sugar for Canada, has been completed by the Brazilian trade bureau here and is now being transmitted to the Brazilian government.

It is the work of J. C. Ribeiro Campos, who for the past year has been chief of the Brazilian trade bureau here. Having completed the survey, Campos now is en route to Brazil to lay the document before his government.

It is credited with being the most elaborate blueprint yet prepared for the development of two-way trade between the two countries.

One of the chief features, according to officials of the Brazilian trade bureau, is its proposals for large shipments of sugar to relieve the scarcity in Canada just as soon as the sugar situation in Brazil improves to the point of permitting existing export restrictions to be lifted.

That time is expected to come within the next six or eight weeks, as Brazil now is harvesting a sugar crop placed by first estimates at the bumper figure for recent years—of 18,000,000 bags—up 3,000,000 bags over last year's crop of 15,000,000 bags.

In the report which he has taken back to the Brazilian government,

### PRAISE FOR CANADA

London Paper Pays Tribute To Wartime Service Given Britain

LONDON.—The London Evening Standard paid editorial tribute to Canada's wartime support of the United Kingdom in food and hard cash.

The newspaper, owned by Canadian-born Lord Beaverbrook, former Conservative cabinet minister and an advocate of preferential tariffs with the empire, said that Canada's assistance deserved wider recognition "in face of the threat which the Bretton Woods agreements" holds against empire economic unity.

The editorial was entitled "Our Good Friend" and said that Canada was feeding Britain at a discounter, exporting last year alone \$741,300,000 worth of agricultural produce, mainly wheat and flour. The retail price was \$1.55 per bushel, while buyers outside the empire paid \$1.50.

In the same year, the editorial said, Britain got meat, dairy and sea produce worth \$271,100,000 at prices equivalent for the food sovereign \$4.47 now quoted at 175,000 drachmas.

Furthermore, Canada had made currency gifts of \$1,800,000,000 in excess of 100 feet of the duration of the war sterling balances totalling \$700,000,000.

### WEATHER STATION

To Be Established 480 Miles North Of Churchill

CHURCHILL, Man.—A weather station and air field will be established at Baker Lake, a trading post 480 miles north of Churchill, for the Canadian army's exercise Muskox, Lt.-Col. P. D. Baird, officer commanding the northern expedition, announced.

He said an advance party of 11 men will be sent to Baker Lake in probably a week's time. The party will be under the command of Maj. Graham W. Rowley of London, England, and of the directorate of operational research in Ottawa.

The weather station will be established in a country virtually uncharted as far as meteorological stations are concerned for a distance of almost 800 miles.

### BREAK ACCIDENT

EDMUNDSTON, N.B. Leo Char-est, 40, died after a freak accident while he was putting air into a tire of his truck. The locking rim came off, the tire blew out, he was knocked to the floor and the tire landed on his head. A similar accident at the same scene caused the death of Hervé Couturier nearly a year ago.

### VETERANS FIRST

TORONTO.—Veterans who were earliest users of automobiles or trucks prior to enlistment are entitled to top priority rating in buying new vehicles, the veterans affairs department announced. Double amputation cases also are entitled to top priority with certain qualifications.

## TRADE POSSIBILITIES WITH BRAZIL MAY RESULT IN BETTER PROSPECTS FOR MORE SUGAR

OTTAWA.—A detailed study of Brazilian-Canadian trade possibilities, with a prospect of more sugar for Canada, has been completed by the Brazilian trade bureau here and is now being transmitted to the Brazilian government.

It is the work of J. C. Ribeiro Campos, who for the past year has been chief of the Brazilian trade bureau here. Having completed the survey, Campos now is en route to Brazil to lay the document before his government.

It is credited with being the most elaborate blueprint yet prepared for the development of two-way trade between the two countries.

One of the chief features, according to officials of the Brazilian trade bureau, is its proposals for large shipments of sugar to relieve the scarcity in Canada just as soon as the sugar situation in Brazil improves to the point of permitting existing export restrictions to be lifted.

That time is expected to come within the next six or eight weeks, as Brazil now is harvesting a sugar crop placed by first estimates at the bumper figure for recent years—of 18,000,000 bags—up 3,000,000 bags over last year's crop of 15,000,000 bags.

PRETTIEST ON LONDON BUSSES

Cynthia Churchill has been chosen London's most beautiful "clippie"—bus conductress—in a contest sponsored by the London passenger transport board.

### DO NOT WANT MONEY

ATHENS.—Greek workers, instead of demanding wage readjustments, are insisting on being paid in foodstuffs, or other articles. Lack of public confidence in the drachma is shown by the daily increase in the equivalent for the gold sovereign \$4.47 now quoted at 175,000 drachmas.

TO COME TO CANADA SOON—Sir Harold Alexander, governor-general designate of Canada, is seen in an informal pose with his dog Tessa at his home in Windsor, England. He will visit Canada in the spring.

CANADA'S NEW CARDINAL—His Eminence James Charles Cardinal McGuigan is seen at his desk with some of the more than 2,000 messages of congratulation which have come to him since announcement of his appointment by Pope Pius XII as a prince of the Roman Catholic church. A native of Prince Edward Island, he has been archbishop of Toronto since 1935 and before that was archbishop of Regina, Sask. He plans to go to Rome in February, with Canada's French-speaking cardinal, Rodrigue Villeneuve of Quebec, and will receive his cardinal's hat from the pope at that time.

### ASSERTION DENIED

No Peace Feeler Was Conveyed To Germany By Britain

LONDON.—The foreign office announced that "no person in responsible position in this country ever took any initiative for the opening of negotiations with Germany in 1941 or at any other time during the war."

The announcement followed disclosure in Nuremberg of a document allegedly submitted to Hitler in 1941 by Dr. Albrecht Haushofer, intimate adviser of Rudolf Hess. The document asserted that "important English circles" conveyed a peace feeler to a representative of Hess a month before the deputy führer flew to Britain in May, 1941, in a vain attempt to end the war.

### WILL CARRY TROOPS

The Queen Elizabeth Will Continue To Bring Canadians Home

LONDON.—According to the present allocation of shipping, the 85,000-ton Cunard liner Queen Elizabeth will continue to carry Canadian troops until further notice, Canadian military headquarters in London announced.

The statement was issued after the London Evening Standard printed a story stating that the Elizabeth was about to make her last voyage as a Canadian troop ship.

## GENERAL EISENHOWER SAYS IT WAS CO-OPERATION OF THE NATIONS THAT WON THE WAR

### PRODUCTION DOWN

Fewer Hogs Raised Making Bacon Quota To Britain Impossible

OTTAWA.—Government sources concerned with food said in comment on a statement by Prof. A. H. Ewan of the University of Saskatchewan that Canada has shipped all the bacon possible to Britain and has indicated many times she would be unable to fulfill the contract because of a decline in hog production.

Prof. Ewan said in an address to Saskatchewan Agricultural college graduates that "Canada let an opportunity go last year when it failed to ship to Britain its 450,000,000 pound quota. Danish produce is already being sold there."

The government officials added that the Dominion could not ship what it did not have and noted that Canadian consumers had gone without bacon or had eaten only the scraps it cut in its effort to get every available ounce overseas.

### SAIL FOR HOME

Four Dutch Seamen Were Interned Here During The War

HALIFAX.—Four happy Netherlands merchant seamen saw the last of a Halifax jail, leaving the 7,036-ton Dutch freighter Ashbert Cuyt just before she sailed for their homeland.

The seamen had been held in prison here for years during the war and were deported, as arrangements between the Canadian and Netherlands governments had only recently been completed to send them home.

The Dutchmen were placed in prison for refusing to sail aboard ships during the war and chief immigration inspector A. G. Christie said this was the wartime regulation.

They were offered opportunities to sail aboard other vessels but had refused and consequently were held in jail, he explained.

### TO BE DECIDED

Supreme Court Will Submit Ruling On Deportation Of Japanese

OTTAWA.—The validity of orders-in-council providing for the deportation of Japanese in Canada will be tested before the supreme court of Canada at a hearing Jan. 24, it was learned here.

An order-in-council referring the orders to the court for a test was passed by the cabinet after it reviewed a request from a Toronto committee for such action.

The case will be the first to be heard in the new Supreme court house, built prior to the war, but not occupied by the court until recently.

The deportation orders-in-council were tabled in the commons Dec. 17 always find themselves in the forefront of the charge."

## SAYS THE RIGHTS OF NATIONS CANNOT BE SECURE UNLESS THROUGH AN ORDERED SOCIETY

LONDON. The King told representatives of 90 per cent of the world's peoples that in their hands lies the power "to make or mar the happiness of millions of your fellow-men and of millions yet unborn."

"The rights both of nations and individuals cannot exist and stand secure unless nations and individuals alike are members of an ordered society," the King declared. "Such rights can only be fully enjoyed when they are recognized as part of a common interest in which we all share."

The King delivered his message to leading diplomats and statesmen of the world at a Royal banquet in St. James' Palace which was a preliminary to the opening of the first session of the United Nations general assembly.

Touching on one of the major problems facing the U.N.O.—atomic energy—the King told delegates that they had been given the machinery that would enable them "to harness to the service of mankind these new sources of energy which the genius of man has discovered."

"It is for you to lay the foundation of a new world, where such a conflict as that which lately brought our world to the verge of annihilation must never be repeated," the King said.

But he warned that the "prizes now offered to mankind will not be won without effort and sacrifice." "Clearly, the outstanding feature of membership of the United Nations is service—not a selfish defence of mere national interest but service to the whole community of nations. Here, in the prime motive power which must inspire all its actions and enable the approach to every dif-

### STUTTERING SCHOOL

Vancouver Service Is Curing Hundreds Of Students

VANCOUVER.—A Vancouver school board service that is releasing hundreds of school children from the handicap of stuttering yearly will be extended during 1946, it was announced.

The service was introduced in Vancouver in 1939 and last year 500 out 1,200 child stammerers were pronounced cured.

Boys suffer more often than girls from defective speech, which is a psychological handicap, said Mrs. Effreda Webb, in charge of the course.

### JEWISH REFUGEES

BERLIN.—At least a fourth of the 2,000 Polish Jewish refugees who fled the Russian sector of Berlin—supposedly to escape evacuation into the Russian occupation zone of Germany—turned up in the American sector of the city, where they posed a problem of feeding and housing.

## LOCAL NEWS

Born: To Mr. and Mrs. Tony De-Cecco on Monday, January 7, a daughter.

Mr. Fred Davis, of the Empire Hotel, left on Monday to spend a few days at Calgary.

"Happy" Erickson returned to Travers on Tuesday following a visit with relatives during the past two weeks.

Mrs. Oliver Salvador and daughter, Lynn, of Creston, are the guests of the former's parents, Mr. and Mrs. John Kinnear, sr.

Miss Hazel Krzywy planned on leaving to-day for Red Deer where she enters the hospital as a nurse-in-training.

Elidio Salvador and friend, of Creston, arrived in town on Sunday and attended the funeral of the late Mr. Jack Richards.

Mr. A. A. Anderson has returned to his Lethbridge home following a month's vacation with his daughter, Mrs. Jim Radly, and Mr. Radly.

Mrs. J. Urwin entertained last Thursday evening at three tables of bridge. Honors were won by Mrs. A. Wilson, Mrs. G. D'Amico and Mrs. S. Gillies. Mrs. I. A. James won the travelling prize.

LAC Harold Webster recently returned from overseas and after a visit with his mother at Nelson arrived here at the week-end to re-new acquaintance with old Coleman friends. While here he is the guest of Mr. and Mrs. Joe Emmerson.

## Coleman Grands Take An 8-2 Decision From Blairmore Juniors

Locals Much Too Powerful For Inexperienced Club; Maintain Undefeated Record.

Coleman Grands won their fifth straight league match to maintain their undefeated record in the Crow intermediate league.

Owing to the determination of the Juniors to hold down the score, play was quite ragged in the first two periods as the Juniors back-checked doggedly to give added protection to their sterling young goalie Ennis.

Only Bill Fraser found the net in the first period as he skated through the defence, lost the puck momentarily, retrieved it and then shot it into the net. Collings, recently returned from Vancouver, got an assist on the goal. His play throughout the game was most aggressive and he will prove to be a valuable asset to the club in the playoffs.

Catonio, clever young stickhandler for the Juniors, put his team on even terms at the opening of the middle frame when he deflected the veteran Tony Vajprava's shot past Dave Fox. Andrews, Cytko and Pavlus put Grands three up before Catonio came through with his second goal of the game before the period ended.

In the third period Grands unleashed heavy pressure and Kwasnie, Lant and Andrews scored three goals in four minutes, Bill Field's adding the local's eighth goal of the game with five minutes remaining in the period.

## Antle And Danczy Dominate Bonspiel; Both Undefeated

Pontiac and Studebaker Competitions Reach the Eighths; Cole Competition to Start Next Sunday.

Antle, of Coleman, and Danczy, of Blairmore, dominate the Cole-Pontiac-Studebaker bonspiel which is currently in play at the three Pass arenas and which is being sponsored this year by Bellevue Curling Club. Neither team has lost a game. Danczy is in the most favored position, being in the fourth of the Studebaker and eighths of the Pontiac.

Last Sunday Antle played and won four games on sticky ice which was a feat which the entire personnel of the rink can be very proud. The rink is in the eighths of both Pontiac and Studebaker.

The weather Sunday was quite mild, making the ice heavy. In Bellevue the ice became unplayable in the afternoon and all draws were cancelled. However, Coleman ice remained fairly good and games were played till quite late. The Blairmore draw was also cancelled. Cole's competition, which is known as the consolation event this year, will start next Sunday, with all rinks that failed to get into the eighths of the two competitions being placed on the draw.

Here is how the Pontiac and Studebaker competition stands: 8's, Pontiac: Dow vs Antle, Riva beat Beal, Danczy vs Krzywy, Boulton beat Kerr.

8's, Studebaker: Danczy beat Beal, Antle vs Oliver, Old beat Hoggan, Parker beat Brown.

**TO REVIVE TRADE:** In preparation for the re-establishment of normal trade between Canada and the United Kingdom and Europe, John C. Patten has been named European general manager for the Canadian Pacific Railway Company at London, Eng. Mr. Patten has been in London for the past nine years, with his services loaned to the British Government for four of those years on war work. He returned to his London office in September, 1944, from Ottawa, where he was Canadian representative for the British Ministry of Supply.

## BURNS' CONCERT FRIDAY, JANUARY 25

On Friday, January 25, in commemoration of the birth of Robert Burns, concert lovers will be entertained by a delightful program of Scottish songs, music, readings and dances.

The Community hall has been engaged for the occasion, and following the concert, the floor will be cleared. Dancing to suit both young and old will then be enjoyed till the wee sma' hours.

Be on hand one and all and share in a full evening's entertainment. Tickets are only 50c.

### HOUSE FOR SALE

4 Rooms, clothes closet, pantry, garage, two lots. Cash or terms. Apply to Mrs. M. Simla, West Coleman.

## Your Co-Operation PLEASE!

I ask the co-operation of all citizens requiring removal of ashes. It is only 2 weeks since I secured my truck and I am working very hard to clean up all ashes within the town.

Protests and criticisms are most unfair when it is realized that practically half a winter's supply of ashes have to be gathered and they most certainly cannot be gathered within a short space of two weeks.

Please be patient.

W. MARTLAND,  
Town Ashman.

**YOU'RE TOPS** in the family's estimation when you serve delicious Maxwell House Coffee. It's bought and enjoyed by more people than any other brand of coffee in the world.

## In Memoriam

**TOPPANO**—In Loving Memory of our dear Ines, who passed away on Jan. 19, 1943. I cannot say and I will not say That she is dead—she is just away! With a cheery smile and a wave of the hand She has wandered into an unknown land And left us dreaming, how very fair It needs must be, since she lingers there.

Think of her faring on, as dear in the Love of There As the Love of Here. Think of her still as the same, I say, She is not dead, she is just away. Sadly missed by Angelo, Mary, Norma, Mother and Dad, sisters and brother. People shop where they are invited—that's why it pays to advertise.
